Investing in Our Future: Building Tomorrow's Transport System

RTSA's March meeting features a presentation by:

Tony Canavan

(Coordinator-General, Nation Building and Jobs Plan,
Department of Premier and Cabinet)

Tony's recent roles have included leading the Eddington Report into Melbourne's future transport needs, Victoria's representative with Infrastructure Australia, Chief Executive of the Southern Cross Station Authority and General Manager of the Commercial Division at VicTrack.

Until very recently, Tony was Head of Partnerships Victoria within the Victorian Department of Treasury and Finance. However, in February Tony has temporarily moved from this role to become Victoria's Coordinator-General for the recently announced Federal \$42b Stimulus Package.

Where and When:

Rooms A and B
Engineers Australia
21 Bedford St., Nth Melbourne
Wednesday 18th March, 2009
