Victoria

## *Railway Bridge Construction*

*RTSA's July meeting is a joint function with  
Young Engineers Victoria, presented by:*

***Kevin Marchant***  
*(Project Manager, Thiess)*

*Kevin has over 18 years' construction experience in the  
UK and Australia working on prestigious civil engineering  
projects including bridges, roads, rail and buildings.*

*He was instrumental in driving design changes to include  
build-ability and safety into the design of the Bungaree  
deviation bridges (part of the Ballarat corridor Regional  
Fast Rail project). The two major bridge structures  
over the Moorabool River and Lal Lal Creek are among  
the largest rail bridges in Australia.*

*Kevin's presentation will cover the design development  
and construction methodology including the innovative  
use of steel wind tower columns to reduce on-site work.*

### *Where and When:*

Engineers Australia  
21 Bedford St., Nth Melbourne  
Wednesday 15th July, 2009  
6pm for finger food, 6:30 start

***Members and non-members welcome***
