The presentation includes lessons learnt, benefits and difficulties from project and program alliances currently being completed in Brisbane and Sydney including:

- QR – Trackstar Program Alliance – delivering 3 major projects and many minor projects in South East Queensland (\$1.2b plus)
- ARTC – Northern Upgrade Alliance (NSW)
- TIDC – Kingsgrove to Revesby Quadruplication in Sydney

About the Speaker:

Richard Morwood, Alliances & Sustainable Infrastructure Director, AECOM – Australia and New Zealand

Richard is one of the three authors of the recently released book “Alliancing – a participant’s guide”.

Richard is the Alliances & Sustainable Infrastructure Director of planning, advisory and engineering consultancy, AECOM (formerly Maunsell AECOM). Richard has 33 years experience working on infrastructure projects involving engineering studies, design, procurement and project delivery with particular expertise in transport, mining and environmental projects. Richard is currently an Alliance Board member on:

- QR SEQIP TrackStar Program Alliance
- SAFELink Alliance
- Eastern Busway Alliance
