

The Railway Technical Society of Australasia

Invites you to a tour of

THE NEW WELLINGTON EMU DEPOT

Joe Burling, KiwiRail EMU Depot Maintenance Manager (and previously KiwiRail Depot Transitional Manager) and **Kate Cushing**, Project Manager for Beca will provide a brief presentation detailing the design and build process for the new EMU depot, wheel lathe facility and carriage depot.

The presentation will be followed by a tour of the new EMU depot.

Some of the key features include:

- High roof access maintenance platforms, including crange
 - High road/ open pit area
 - Jacks – ability to lift complete 2 car sets without splitting
 - Improved safety through depot protection system
-

KiwiRail Electric Multiple Unit Depot, Thorndon Quay (opposite Davis Street)

Please park on the road and walk down the driveway next to VTNZ

Meet at the new entrance located part way down building on driveway side

Wednesday 10th August 2011

Tour and Presentations will begin at 5.30pm, Light refreshments from 7pm

RSVP to rtsameeting@gmail.com by Friday 5th August
