

AGM and Technical Presentation

Rio Tinto Iron Ore - Continuing to Grow

Richard Cohen, General Manager – Expansion Studies,
Rio Tinto Iron Ore

The Railway Technical Society of Australasia (RTSA) - WA Chapter

SUMMARY

As a major iron ore producer in the North West of Western Australia Rio Tinto Iron Ore is planning for growth in a highly competitive market. This presentation will cover aspects of the planning and forecasts for the future.

ABOUT THE SPEAKER

**Richard Cohen, General Manager – Expansion Studies,
Rio Tinto Iron Ore**

Richard is currently the General Manager – Expansion Studies where he is accountable to take projects from conceptual level, through prefeasibility and feasibility study to approval.

Prior to this role, Richard was the General Manager – Railways Division of Rio Tinto Iron Ore, the largest privately owned railway in Australia from 2006 through to 2011.

Prior to this role, Richard was the Dampier Port Operations Manager for 3 years.

Richard commenced with Hamersley Iron in 1994 as a graduate in the role of Electrical Project Engineer and has worked in many key areas throughout Dampier and Paraburdo,

Richard completed a Bachelor of Engineering with first class honours and a Bachelor of Commerce (Management) with the University of Western Australia in 1993. Richard has also completed the Young Professional Program through London Business School in 2001 and in 2010 was a WA Business News 40Under40 recipient.
